

NPI LAUNCH DECK - INTERNAL USE FLIR CONDITION MONITORING SERIES

FLIR ONE® EDGE SERIES

SEPTEMBER 2023

www.flir.com/FLIRONE-EdgePro.

Easily Inspect Anywhere

Measure targets in difficult-to-reach areas from any angle, and enhance visibility through remote monitoring

- Wireless Seamlessly connect to both Android and iOS devices, including cases
- **Detachable** Use securely attached to mobile or easily detach to look over, under and around obstacles while maintaining a clear view of your device screen
- Rugged, IP54 Moisture resistant and 2 m drop tested

High-Quality Images and Performance

Inspect areas accurately with FLIR proprietary image enhancement features

- **Best-in-class Image Quality** MSX and *Vivid IR (Pro only)* combine for the best image in its class to help make better thermography decisions
- **Measure Hotter Targets** Measure object temperatures up to 400°C (752°F) (Pro only)
- Ready when you need it 2.5-hr run time with fast charging

Enhance Your Way of Working

Improve efficiency and large enterprise scalability with powerful application support

- Application Guidance Get step by step inspection guidance on thermal imaging
- **Seamless connection to Ignite** Automatically upload your images to FLIR Ignite for cloud storage, organizing files, quick reporting and collaboration with colleagues.
- Work your way A wide range of mobile apps developed by 3rd party available for specific use cases, and opportunities to create your own custom apps to maximize the benefits of thermography for your business.

FLIR ONE EDGE SERIES KEY DIFFERENTIATED FEATURES

WIRELESS VIDEO & DATA

- Work with camera attached or detached from mobile device
- Look over, under and around obstacles and into difficult to reach areas
- View and control capture remotely at over 5 meters (16 ft) distance

ONE DEVICE, BOTH MOBILE PLATFORMS

- Same FLIR ONE Edge or Edge Pro works with either iOS or Android operating systems
- No need to replace thermal camera if you replace your device
- Easier to scale in large organizations

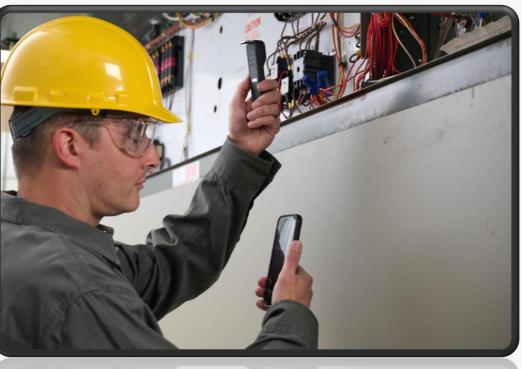

GREAT IMAGERY

- MSX makes FLIR Edge series imagery easier to pinpoint issues
- VividIR further improves ability to detect and understand issues by removing blur and improving detail (Edge Pro)

FLIR ONE EDGE SERIES USE IT ATTACHED OR APART

NATURAL GRIP AND DESIGN

DON'T BLOCK THE CAMERA

Natural grip and design avoids unwanted body parts in your field of view

Plugin design can be awkward for users, causing unwanted objects in the view

WIRELESS DESIGN BENEFIT

LOOK AROUND OBSTACLES

With the unique wireless design, professionals can now reach areas that were once very difficult, seeing over, under, and around obstacles.

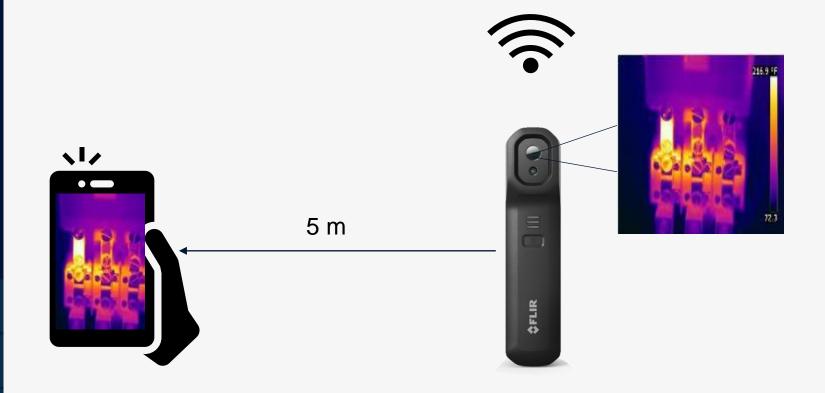

VIEW SCREEN UP TO 5 M (16 FT)
IMAGE DANGEROUS TARGETS SAFELY

REMOTE OPERATION

The remote design also enables the thermographer to put the camera inside a sealed space, such as a wind tunnel, or to monitor dangerous targets remotely and safely.

SAME UNIT IS COMPATIBLE
WITH BOTH IOS® AND
ANDROID™ DEVICES*

FUTUREPROOF

Avoid replacing your thermal camera when you change your phone

^{*} Check flir.custhelp.com for latest compatibility

WORK THE WAY YOU WANT TO

PRODUCTIVITY MAXIMIZED

FLIR ONE APP for capture, editing, and sharing

TELEDYNE

- FLIR Ignite Enabled
 - Auto upload, sync to desktop and share to your team
 - Web Edit and Report
- 3rd Party Apps for specific kinds of work
 - o Example: Rocketplan for Disaster Restoration
- FLIR Mobile SDK to create custom apps to deploy for your whole organization (https://www.flir.com/developer/mobile-sdk/)

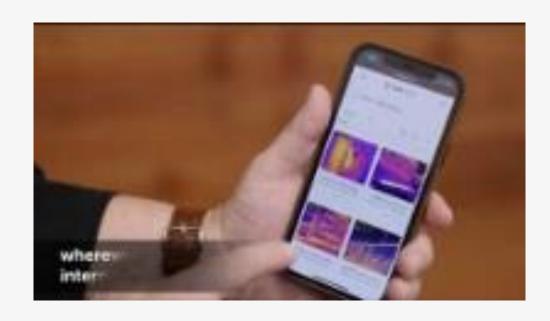

FLIR ONE APP: IGNITE ENABLED

- Enable the "Deskless Office"
- Improve Efficiency: Automatically upload files from your FLIR devices
- Access your images anywhere, anytime
- Sync to Desktop

- Secure Online Storage
- Editing and reporting
- Collaborate and Share data with your team or clients
- Free 1 GB Data. 10, 100, 1000 GB Plans.

MOBILE SOFTWARE EMPOWERS USERS

FLIR & 3RD PARTY

- APP Gallery
- iOS and Android*
- Condition Monitoring
- Disaster Restoration
- Property Inspection
- Construction
- Bee Keeping
- And more...

FLIR APP STORE

FLIR MOBILE SDK

- Customer Proprietary APP development for specific use cases
- Developer HUB for ongoing support

FLIR ONE EDGE SERIES

ACCESSORIES & OPTIONS

- Pouch for Edge Series T912180ACC
- Ignite Cloud-based software (1GB, 10GB, 100GB, 1000GB)
- Mobile SDK
- 3rd Party Apps

Simple belt pouch for stowing when not in use, or throw in your tool case

MODEL DIFFERENTIATION

FLIR ONE EDGE

- > 80x60
- > Up to 120°C (248°F)

Suitable for:

- Indoor Moisture & Heat loss inspection
- Electrical breaker panels
- Motor inspection

FLIR ONE EDGE Pro

- > 160x120
- ➤ VividIR™ image enhancement
- > Up to 400°C (752°F)

Suitable for:

- Indoor Moisture & Heat loss inspection
- Electrical breaker panels & low voltage components
- Motor inspection
- Higher temperature process inspection

SUMMARY

FLIR ONE EDGE & EDGE Pro

- Revolutionary wireless design for operating system agnostic solution futureproof, scalable
- Same revolutionary design enables new inspection possibilities looking over, under and around obstacles or remotely monitoring dangerous equipment
- FLIR Ignite connectivity within FLIR ONE App enables easy sharing, backup, web editing and reporting and future expansion possibilities

Part of the Teledyne Imaging Group
